

## THE *FIEQUIMETAL* PRESENTS A *INFORMATION PORTAL* ADVISING COMPANIES AND DISPLACED WORKERS

The *Fiequimetal* participates in the EU-funded project **INFO-RIGHTS** (*Making information the basis for strengthened and enhanced labour rights in the agricultural and manufacturing sectors in the context of intra-EU posting of workers*), which focuses its activities on providing **information and advice** to both posted workers and the employers posting them.

A **Chatbot** and an **Information Portal** have been created, from which information and personalized advice that may be requested by workers and employers of the Member States, or candidates, of the European Union will be provided and which can be accessed from the following address:  
<https://projetos.fiequimetal.pt/about/>

The **chatbot**, created as part of the project, addresses any questions related to the regulations governing posting of workers and their labor rights during the posting, as well as specific aspects of the working conditions of these posted workers in the agricultural and manufacturing sectors.

The **information portal** offers various information on worker posting in various European languages and features a contact system that allows you to contact project experts with questions and an option that facilitates interaction between workers and employers on topics of interest during their postings.
